MANILLA IS ATTACKED

Merritt Has Begun the Conquest Of the Philippines

PORTO RICO TOO MUST SUBMIT TO UNCLE SAM'S FORCES

Cavite, Aug. 3, via Hong Kong, Aug. 9—Special—The American forces engaged the enemy before Malata Sunday night, July 31, and compelled them to retreat with heavy losses. Our troops lost thirteen killed and forty-seven wounded. After three hours' fighting the Spanish were repulsed with over 200 killed and 300 wounded. The American troops engaged were part of the Tenth Pennsylvania, First California, Third regular artillery, and Battery A of Utah. The Spanish led in the attack, attempting to dislodge our troops by a flank movement from a strong position they had been holding near the enemy's lines. The position is still held by our troops. The attacking force was composed of 3,000 men.

London, Aug. 9—Special—A Hong Kong dispatch says that on two nights following the Manila battle there was artillery firing in which three Americans were killed and a dozen wounded.

The monitor Monterey has arrived, together with three delayed transports of Gen. Merritt's fleet.

Chickamauga To Be Abandoned.

Washington, Aug. 9—Special—The war department has decided to abandon the military camp in Chickamauga Park without delay, and move the troops farther north. The reason for this action is not quite apparent, as Chickamauga is not included in the consideration of changing military camps. It is said at the war department that the change is due to the same reason that caused the abandonment of Fernandina, Camp Alger and other places—fear that the general health of the army would become impaired if the troops remained longer at the present locations.

Spain Hears From Porto Rico.

Madrid, Aug. 9—Special—Gen. Correa, minister of war, received a dispatch from Porto Rico stating that Colonel Pinte's column of Spanish troops entered the town of Fajardo and lowered the flag. A band of insurgents who were trying to surprise the Spanish advance guard near Arcicabo was defeated. The rising of the insurgents, Gen. Macias says, is unimportant.

Gorman May Be One.

Washington, Aug. 9—Special—The suggestion that Senator Gorman should be the democratic member of the peace commission has created a decided interest in official circles. His name is believed to be under serious consideration. He is an ardent advocate of territorial expansion.

No More Troops Needed.

Washington, Aug. 9—Special—As a result of Gen. Miles' telegram to the war department stating that he did not need troops, the order to Gen. Wade's force to proceed to Porto Rico has been revoked, and the troops will stay in camp until further notice.

Merritt Attacks Manila.

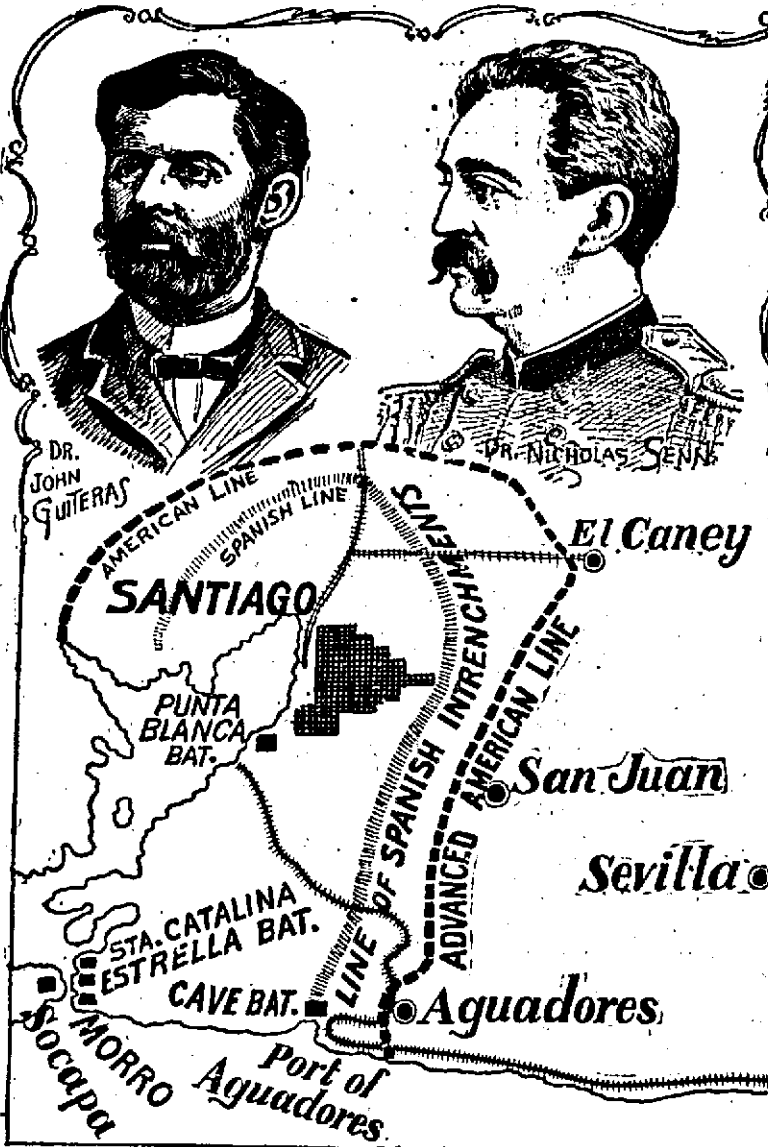

Washington, Aug. 9—Special—Secretary Alger said this morning that telegrams received indicated that Gen. Merritt had commenced a vigorous attack on Manila. High government officials look for the fall of that city at once if it has not already been taken.

The Translation Complete.

Washington, Aug. 9—Special—Spain's reply has undoubtedly been translated, and the air is full of rumors that Spain accepts. What she accepts or rejects, however, the government does not yet know.

Will Be Paroled.

Washington, Aug. 9—Special—The administration has decided to parole the Spanish naval prisoners confined at Portsmouth, N. H. This does not affect the Spanish officers confined at Annapolis.

FIGHTING YELLOW FEVER AT SANTIAGO.

Although yellow fever has broken out in the ranks of the American army, the work of fighting it is in the hands of two experts, Dr. John Guiteras and Dr. Nicholas Senn. Dr. Guiteras is undoubtedly the greatest authority on yellow fever in the medical profession. He has spent years in fighting the disease and as the medical representative of the United States has prevented the spread of the fever from Cuba to the United States on many occasions. As he has successfully coped with six or seven threatening epidemics he will doubtless be able to prevent the fever from creating havoc in the army. Dr. Nicholas Senn, one of the most distinguished surgeons in the United States, is a native of Switzerland, but has lived in this country since he was 9 years of age. He has been president of the American Medical association. The map shows how General Shafter completely surrounded the Spaniards in Santiago and forced them to surrender.

EDGAR PORTER HELD ON SERIOUS CHARGE

FIVE HUNDRED DOLLARS BAIL REQUIRED.

Prisoner Must Answer To the Charge Of Assault With Intent to Do Great Bodily Harm—Visited Yesterday By His Sweetheart—Mackin Is Slowly Improving.

Edgar Porter, who was arrested Sunday night charged with stabbing James Mackin, was brought into the municipal court this morning for examination. Justice L. F. Patton presided, and in a few words as possible he informed the prisoner of the charges placed against him. Chief Hogan escorted Porter from the jail to the court room, and a close watch was kept over him the entire distance. When arraigned before the bar of justice the prisoner had but little to say.

Held For Trial.

Sutherland and Nolan appeared in his behalf, while District Attorney Jackson represented the state. The charge of assault with intent to do great bodily harm was entered against the prisoner, and in default of \$500 bail he was remanded to the jail to await trial, the case being set for 9 o'clock, on the morning of August 18. When the charge was read to him Porter did not seem surprised, for it was probably no more than he expected. The offense is one that may mean a term in the state prison at Waupun. On the outcome of Mackin's injury will depend much the future of Porter.

The Victim's Condition.

Throughout last night the injured lad had a bad time of it, and he spent but little time in sleep. The wound, with everything in the young man's favor, will require some time to heal, and if blood poisoning sets in it may prove a serious affair. At a late hour this afternoon the attending physicians stated that their patient was resting as easily as could be expected.

Porter Has a Visitor.

Porter is not the kind of a lad who has the blues just because he is behind the bars. At the jail he is making the best of the situation, and seems contented.

Yesterday a good looking young lady called at the jail and asked to see him. She claimed that she was the Whitewater girl over whom the boys quarrelled. She was admitted to the iron cage, and for half an hour made the effort of her life to cheer the prisoner.

The outcome of Mackin's injury is now awaited by Porter and his relatives with much interest.

SPAIN NOT SATISFIED

Interposes Trivial Objections To The Peace Conditions

OFFICIALS AT WASHINGTON ANNOYED AT HER COURSE

Washington, Aug. 9—Special—Peace is not likely to be declared for some time to come. The alleged acceptance by Spain of President McKinley's conditions proves to be far from complete. The Spanish government haggles over the terms like a bargain hunter in a department store. The ministers also seek to shift responsibility and leave an avenue for a complete repudiation of their own acts by insisting that the sanction of the cortes and the senate will be necessary to the ratification of the terms. This is regarded as mere pettifoggery. It is probable that a very sharp and emphatic reply will be sent to Madrid, and twenty-four hours' time given for an answer accepting without reservation the conditions imposed by the president. The parleying of Madrid has become wearisome.

The Government of Cuba.

Washington, Aug. 9—Special—A military government for Cuba has been decided upon by the administration. The developments of the campaign have shown that it would be unsafe at this time to entrust the island to the Cubans, who would be prone to the commission of excesses of cruelty against their late oppressors. A military governor, supported by an adequate force of troops, will probably be placed over each state. As fast as it is deemed advisable the civil authorities will be placed in full control, the military, however, retaining the power of veto of their acts until such time as the capacity of the civil power for government has been demonstrated.

Miles Before San Juan.

Washington, Aug. 9—Special—There is likely to be a decisive battle at San Juan within forty-eight hours. The American troops under Gens. Brooke and Miles are almost within gunshot of the Spanish lines, and may attack any hour. Little resistance is anticipated. Gen. Miles has learned from deserters that the fortifications are indifferently supplied with guns and ammunition, and the native troops are anxiously waiting for an opportunity to desert from the Spanish lines in a body. The American flag will be floating over the harbor and city in less than a week.

Not Satisfactory.

Washington, Aug. 9—Special—At 11 o'clock nothing official had been heard of Spain's reply to the peace proposals. It will probably not be presented until after the cabinet meeting. The impression is gaining ground that the reply is not entirely satisfactory.

CONTINUANCE WAS GRANTED

Suit of W. H. Bonesteel vs. W. F. Carle Goes Over Till the 23d

In the municipal court this morning when the case of W. H. Bonesteel vs. W. F. Carle was called an adjournment was taken till August 23 at 9 o'clock. The case is in regard to an account that the plaintiff claims is due him from the defendant. The defendant claims to offset the bill of the plaintiff.

HE GOT HIS DRAFT CASHED

But the Boston Man Had to Come to Janesville to Do It

Herbert Baker, a resident of Boston, was obliged to make a trip all the way from Beloit here today for the purpose of cashing a draft.

Mr. Baker represents the Putnam Horsehoe Nail Company as their traveling salesman, and while in Beloit yesterday he received a draft from his firm. After spending some time trying to make himself known in the Line City, he gave up in despair and came to this city, where he had an old acquaintance—E. O. Lloyd—identify him at one of the local banks. He returned to Beloit this afternoon.

The caucus with but one dissenting vote, instructed its delegates to use all honorable means to secure the nomination of Scofield and Harvey delegates to the state convention, but the body not being built that way Milton, with its 401 republican voter, was denied representation in the state convention. ## COUNCIL GRINDS THE USUAL GRIST

### STREET IMPROVEMENTS CONSUME MOST OF ITS TIME

Many Sidewalks Ordered Built Or Repaired—The Coal Contracts—Payments Made For Pavements—Many Matters of Interest to Property Owners Considered.

All the aldermen were present at the special meeting of the common council last evening.

The petition of Washington Barrage for leave to transfer his saloon license was referred.

The report of the street commissioner as to sidewalks built and repaired was approved.

The police committee will consider the petition of residents of South Franklin street for the erection of an alleged immoral family from 257 South Franklin street.

**Street Improvements.**

The report of the city engineer on the expense of the storm sewer from Pease's court to the river; also the number of feet frontage on South Main and William street and the amount of stone used on North Main street, was referred to the highway and bridge committee, who reported it back as correct and it was received and placed on file.

The clerk reported that he had two bids for grading and macadamizing South Main street from Racine street to Carrington street as follows:

J. H. Watson—45 cents per superficial yard, furnish plank curbing and set with cedar posts, 10 cents per lineal foot; set new plank curbing furnished by property owners for 5 cents per lineal foot.

James Cape & Sons—35 cents per square yard; low curbing, 10 cents per lineal foot; resetting old curbing, 6 cents per lineal foot. The latter bid was approved.

**The Coal Contract.**

Mayor Thoroughgood called attention to a claim presented by William Henry Harrison Macloon against the city for balance on a coal bill of 1895. Macloon sold the city coal at \$5.40 per ton. Before it was delivered the city decided to put in a furnace in the west side building, and Macloon told Chief Spencer he would make no difference in the price of furnace coal. When he made out his bill he charged \$7 and \$7.50 for furnace coal, and denied telling Chief Spencer he would let the city have it at contract price.

**Payments On Contracts.**

An order was offered by Alderman McLean accepting the storm sewer from Pease court to Rock river and for payment of \$100.05 to P. W. Ryan, being the balance due him on the contract; also an order accepting the work of macadamizing North Main street between Prospect and Fourth avenues and for the payment of \$572.05 to J. H. Watson in full payment of said work, \$407.53 from the Second ward fund; \$106.58 from the general fund and \$50.94 special tax; also accepting the grading of South William street and the payment of \$100.95 to P. W. Ryan in full for said work; also directing the clerk to make out a special tax roll for grading North Main street and also South William street. Adopted.

Further time was asked and granted to report on the union label.

**Library Directors.**

The mayor announced the appointment of Mrs. A. P. Lovejoy, Charles O. Russell and Charles L. Fildes to succeed themselves as members of the board of directors of the public library for the term ending, June 30th, 1891. The appointments were confirmed.

The mayor was authorized to borrow \$1,000 for the school fund. The fire and water committee was authorized to examine and cause to be repaired the furnace at the city building; also that Lincoln street be repaired from Holmes to High street and High street from Lincoln to Center street, with crushed stone; open the gutter on the east side of Park avenue between North street and Washington avenue and build a block crosswalk on Linn street, south side of Galena street.

**New Sidewalks.**

Orders for new sidewalks on Gold, Terrace, Chatham, and Milwaukee streets and Center avenue, for a new sidewalk in front of block 42, for new sidewalks on Dodge street, Sharon street, and for various crosswalks and alley improvements were adopted.

The owners of the old street car barn in the Carrington addition were ordered to put the structure in a safe condition, and the council adjourned.

**SHE MET HER SAILOR BOY**

Mrs. Welch Has a Longed-For Talk with Her Boy.

Mrs. Edward F. Welch, who formerly resided in this city on Madison street, and who now makes Chicago her home, was recently notified by the Washington officials that if she wished to see her son, who is in the United States navy, she could do so by going to a certain Virginia coast port where his ship was due to arrive.

Mrs. Welch went there only to find that the boat had left but twenty minutes before her arrival. To another port she went, and was more fortunate. As the sailors left the boat and walked down the plank she failed at first to recognize her son, for many were the changes since she last saw her boy. Their meeting lasted an hour, and was in the nature of a love feast.

## STATUS OF OSHKOSH STRIKE

### Yesterday's Developments Show no Change in the Situation.

Oshkosh, Wis., Aug. 9.—Another day, the advent of which was much feared by the authorities on account of the strike, has come and gone without incident. It was in fact the quietest since the authorities have made their present start. There was no congregation of strikers anywhere, and even the sentries were absent. The police with a large force of specials were in readiness in the vicinity of Morgan's factory, but were not needed. The Foster company did not get a crew, and is still unable to start. All the other companies report slightly increased crews.

Thomas J. Kidd, the labor leader, has left town. It is said, for good. Fourteen warrants are pending against him and as he could not give bail for all he took his departure, as to remain would mean to go to jail.

The strikers' wives have taken up the battle and the city hall has been besieged by them. They seem to think the mayor can raise their husbands' wages if he will and they make his life miserable with their pleadings.

Madison, Wis., Aug. 9.—Reports to Gov. Scofield from Oshkosh indicated more quiet than for several days past and it is thought that there will be no necessity for troops to keep order. Adj. General Boardman and Col. Patton have made daily reports to the governor of the condition there, and they both express the belief that no troops will be needed.

**CHICKEN THIEVES ARE BOLD**

Some From This City Despoil the Roosts of Farmers Residing Nearby

Complaint has been made to the police that thieves who make it a business to steal turkeys and chickens, reside in this city. During the past few weeks farmers residing near town have missed chickens and turkeys by the score, and from all accounts the guilty parties bring their game to this city and dispose of it at good prices. In nearly every instance the birds are killed and dressed so as to make identification difficult. The police now have their eye on a certain First ward family who don't reside many miles from Chatham street.

**DOG AND BADGER HAVE A FIGHT**

Michael Dawson, of This City, Refereed the Contest At West Baden.

Michael Dawson, the well known live stock buyer, who is now at West Baden, Ind., for his health, is a prime favorite with the boys in that locality. Last Friday night's program included a real hard fought battle between a dog and a badger.

The owners and backers of both the dog and badger unanimously decided on Mr. Dawson as referee, and in this capacity, he served to the satisfaction of all.

At the close of the event he received the congratulations of those present.

One day I read an advertisement of Hood's Sarsaparilla and concluded to try it. She began taking it and was soon relieved. I believe she is now permanently cured, as she has not been troubled with catarrh for some time. I was run down in health myself and suffered constantly with backache, and felt all worn out. REFUGEES FROM SANTIAGO.

These starving refugees from Santiago were sketched by a New York Herald artist.

**KILLED IN A TRAIN WRECK.**

Two Engineers and a Fireman Lose Their Lives.

Canton, Mass., Aug. 9.—Three men were killed and a number of mail clerks were severely injured Monday the New York, New Haven and Hartford railroad at Canton Junction by an express mail special from New York to Boston jumping the tracks. The dead are:

JAMES SCHUFELDT, engineer.  
G. K. KNOWLTON, fireman.  
G. STERFELT, engineer, riding in the cab.  
The injured are:  
Joseph Killea,  
Peter Carroll,  
L. H. Butterfield,  
F. D. Lincoln,  
C. A. Buckland,  
W. A. Seymour,  
T. E. Benny.

There were fourteen mail clerks on the train, and Schufeldt, who was riding in the cab, was the engineer of a gravel train and was on his way to work at Mansfield, Scheldon and Knowlton lived at Providence. Schufeldt's home was at Mansfield, Mass. The accident was caused by a misplaced switch. The special was running at high speed on a down grade. At the bottom of the slope the switch at a siding failed to work and in an instant the cars were off the track. The engine and forward car were turned over on their sides, and the other three cars were thrown from their trucks. The locomotive was completely demolished and the forward car was telescoped.

**MAY MUSTER OUT TROOPS.**

Authorities Slacken Their Efforts to Send Soldiers to the Philippines.

San Francisco, Cal., Aug. 9.—The big transports Scandia and Arizona may sail for the Philippines by the end of the week, but not before. There is a growing belief that they may not carry so many men as was at first intended and that the beginning of peace negotiations will mean the mustering out of most of the troops remaining at Camp Merritt and the Presidio.

Gen. Merritt has now with him or on the way to Manila, 15,000 men. Nearly 5,000 tons of commissary stores will go on the Scandia and Arizona. The only movements of troops during the early part of the week will be the beginning of the march to the Yosemite by the Utah cavalry, and perhaps, the sailing of 150 members of the First New York regiment on the Mariposa. No arrangements have been perfected yet for the rest of the regulars, and they are likely to remain here for several weeks, unless some vessel not now in sight takes them.

Maj.-Gen. Merriam himself is anxious to go to Honolulu to look over the new territory added to his department, but he says positively that he will not leave here until the way is clear to send all the troops ordered to sail for Manila.

**Cuban Debt in the Way.**

Washington, Aug. 9.—The administration is rather expecting that Spain will ask that the Cuban debt be one of the questions referred to the peace commission. Whether that request will be made a condition precedent to the acceptance of the American terms is not known. The prevailing opinion is in the negative. In any event it is quite certain the president will refuse to yield on that point and will insist upon both Cuba Cuba and Porto Rico entering into their new state of freedom unembarrassed by any old indebtedness. The entire indebtedness which Spain would like to shove off on Cuba is \$555,000,000, of which amount \$155,000,000 is the old war debt of 1878, and the remainder has been incurred by Spain in an ineffectual attempt to suppress the rebellion which began in February three years ago, and which she has in a way pledged the island for. There is not the slightest prospect of Cuba ever being called on to pay a single cent of this last \$400,000,000. There is just a shadow of equity, however, in the Spanish claim that the \$150,000,000 should be assumed by the new government. This old debt of 1878 was originally \$200,000,000 or thereabouts, and was forced upon Cuba as a condition of peace at the end of the ten years' war.

**Hawaii Commission at Frisco.**

San Francisco, Cal., Aug. 9.—The Hawaiian commissioners, Senators Cullom and Morgan and Representative Hitt, have arrived in this city and will take passage for Honolulu on the Mariposa, sailing Wednesday. Senator Morgan, said that he thought

the settlement of white families on the islands would solve the labor problem there. The Japanese contract laborers might be sent back home at the expiration of their terms of service, but existing contracts must be respected.

Garola Ordered to Join Gomez. New York, Aug. 9.—A special cable to the World from Santiago says: Gen. Garola and his 1,200 insurgents have stopped drawing rations and Garcia has left the province in high dudgeon, because the United States authorities refused to permit him to take up the reins of government. The last heard of him he was west of Holguin, proceeding toward Nuevitas, in the province of Puerto Principe. His purpose is probably to form a junction with Gen. Gomez, who is supposed to be in Santa Clara province. A courier from Gomez is supposed to have reached Garcia last Tuesday, near Holguin, commanding him to join forces with the insurgent commander-in-chief to operate against the Spanish forces in Santa Clara and Havana provinces, independent of the United States troops.

## REPUBLICAN STATE CONVENTION.

Headquarters Republican State Central Committee, Milwaukee, June 15.  
To the Republican Electors of Wisconsin:  
By direction of the State Central Committee, a convention of the republican electors of the state of Wisconsin will be held in the city of Milwaukee on Wednesday, the 17th day of August, 1898, at 12 o'clock noon, for the purpose of nominating a republican state ticket to be voted for at the general election in November next, and to transact such other business as may properly come before the convention.

The republican electors of Wisconsin are cordially invited to unite under this call in sending delegates to said state convention.  
In accordance with resolution recommended by the state convention and formally adopted by the State Central Committee, in electing delegates to the state convention, in counties having more than one assembly district, except Milwaukee county, the unit basis shall be the assembly district, and in such counties delegates shall be elected by assembly district conventions, and the names of the delegates so elected shall be certified to the State Central Committee by the chairman and secretary thereof; in all other cases delegates shall be elected by county conventions.

Under the present basis of representation the several assembly districts in the state are entitled to one delegate for every two hundred and fifty (250) republican votes, or major part thereof, cast at the last preceding presidential election.

Special attention is hereby called to the fact that all conventions to elect delegates to the state convention must be called on a notice of not less than four weeks, all town or ward caucuses as primaries to State convention on a notice of not less than ten days, and that notice of the meeting of such convention or caucus shall be given in the usual manner.

As the State Central Committee acts as the Committee on Credentials, it is requested that credentials of delegates elected, duly certified to by chairman and secretary of county or assembly district conventions, be forwarded to the secretary at Republican State Central Committee headquarters in Milwaukee, immediately upon their election; in every case giving the names in full and postoffice address.

EDWIN D. COLE, Chairman.  
JOHN M. EWING, Secretary.  
Rock county will be entitled to 33 delegates, distributed among the assembly districts as follows: First district, 9; Second district, 11; Third district, 13.

The congressional convention comes next.

Congressman Cooper's renomination is now doubly assured.

Speaker Reed has been renominated for congress by acclamation.

The county ticket could not be improved and it will receive the largest majority ever registered for candidates for county office.

The St. Louis Globe Democrat says: The production of gold for 1898 is estimated at \$285,000,000. That for 1897 was \$240,000,000. In 1873, the year of the "great crime," the yield of gold was \$115,577,000, and of silver \$1,804,400. The figures expose the humbug of what is called the appreciation of gold through contraction.

Edward M. Byzer's brief remarks in introducing the resolution adopted by the county convention, yesterday, commanded close attention. He spoke feelingly of the soldiers now at the front, and it was evident that many of the audience were interested personally in some of the "boys in blue." There were tears in many eyes as he finished.

The close of the scale year, which closes June 30, found a gratifying condition of affairs in the iron, steel and plate industry. The wage agreements have been reached much earlier than usual by the manufacturers and the Amalgamated Association, all of the scales for the coming year having been practically settled. President T. J. Shaffer of the Amalgamated Association is quoted by the American Economist as saying that not one mill will be closed this year on account of wage disagreements.

A comparison after the first eight months of the Wilson tariff law and the first eight months of the Dingley law showed that in Oregon there were employed in manufacturing industries 125 per cent more hands under the latter law than the former; the gross amount of wages paid was 141 per cent more, and the rate of wages was 7 per cent higher. No wonder the state went overwhelmingly republican at the late election.—Boulder (Col.) News.

## FOR LITTLE FOLKS.

## WHO LOVES MAMMA?

When the Test Came, Only One of the Four Was Proved.

The sun had gone down, and it was dark in the sitting room. Great flakes of snow were flying through the air outside. The wind whistled and blew through keyhole and under doorsills.

Mamma sat in a big Boston rocker in front of a blazing grate fire, surrounded by her little family—Willie, the youngest, on her lap, Janet on one arm of the chair and Jack on the other, both with their heads leaning on mamma's shoulders, while Sam, the oldest boy, sat on a stool at her feet, with his back close up against her.

"I love you, mamma," said Janet.

"So do I," "So do I," "So do I," chimed in the three other voices.

"I love you more than anybody else can love you," said Sam, "because I'm the oldest. I loved you the longest."

"I love you the most, because I'm the only girl," said Janet.

"I love you so much I wish a big bear would come after you, and I'd shoot him," said Jack.

"I love you more than I can tell you," said Willie, putting his arms around his mother's neck and kissing her again and again.

Then all the children kissed her at once, and poor mamma was almost suffocated with their embraces.

"Do you love me, children?" she asked. "Do you really know what love is?"

"Why, love is love—something you feel inside of you that makes you want to do something for somebody."

"Yes, love is doing something—not your own pleasure, but doing something for some one else, perhaps something hard and unpleasant."

Just then the postman whistled at the door, and the children ran to see what he had brought.

"It's a letter for me," said mamma as she opened it, "and I must write an answer at once, so it will go in this evening's mail. Who'll take a letter to the lamp-post for me?"

Sam looked out of the window. How the snow blew around! His rubber boots were away up stairs. Oh, dear, he had five hard examples to do! Why couldn't that letter wait until morning? He'd take it on his way to school.

Jack looked out of the window too. Ugh, how dark it was! He didn't like being out in the dark alone. It made him scary. Suppose there should be bears somewhere about the street corner. In the stories he had read when they came it was always in a snow-storm.

Janet thought: "Why, certainly mamma doesn't mean me to go as long as Sam and Jack are in the house. I've got my slippers on. I hate going out in the cold."

So when mamma had finished writing the reply to her letter and looked up, she found Sam busy with his slate and pencil, Jack with one of his games, and Janet knitting away very industriously on a hood for her doll. Only Willie stood before her with his big boots on and his overcoat turned up about his ears.

"I'm all ready, mamma," he said.

"But, Willie, aren't you afraid to go alone?" she asked. "It's getting dark, and it's cold out of doors."

"I love you, mamma," he answered.

"I'll run fast, and I don't believe anything will hurt me."

"Yes, you may," said mamma.

"Don't get lost in the snowdrift, little man. I'll watch you from the window. I know who loves me truly to-night," she added, with a sorry smile.

"Love does not think of itself, and love conquers even fear, doesn't it, Willie?"

**Pussy's Fishing.**  
Come, my children, here's your dinner.  
A very luscious dish.  
Your mother's been a-fishing  
And has caught for you a fish.  
I fished it, oh, my darlings,  
From a basket at the door,  
And I heard the cook a-comeing,  
Or I might have got some more.

May you never know, my children,  
The terror I was in.  
Coolly don't approve of fishing.  
She thinks it is a sin.

Come, my babies, take your dinner.  
'Tis a most delicious dish,  
For your mother's been a-fishing  
And has caught for you a fish.  
—Brooklyn Eagle

**Nature Teaches Generosity.**

Laisus illustrates as follows:  
"I called the other day on my friend Mrs. T., who has the finest collection of roses I ever saw. She took me out to see them—white roses, red roses, yellow roses, climbing roses and roses in pots, the gay giant of battles and the modest moss rose, every species I had ever heard of, and a great many I had never heard of, were there in bright profusion. Mrs. T. began plucking right and left. Some bushes with but a single flower she despoiled. I remonstrated. 'You are robbing yourself, Mrs. T.,' said I. 'Ah,' said she, 'Mr. Laisus, do you not know that the way to make the rosebush bear is to pluck its flowers freely? I lose nothing by what I give away.'"

This is a universal law. We never lose anything by what we give away.

**A Little Girl's Idea.**  
It lightened awful bad last night;  
The flash was all about;  
But after while there came the rain  
And put the lightning out.

## STRANGE SCENES IN PORTO RICO

### JANESVILLE BOY WRITES OF HIS EXPERIENCE THERE

Natives Greet the American Flag With Enthusiasm—Spies Are Treacherous—Fruits of All Kinds Are Plentiful and Cheap—Scenes That Are Unique to Northern Eyes.

Mrs. George Butler, of 288 South Main street, has just received a letter from her son Dee, who is with the Second Wisconsin regiment in the army in Porto Rico. He writes under date of July 30 from Ponce. He says: "On July 27 we were ordered to land under fire of the fleet, but the town surrendered and soon after the United States flag and Wisconsin standard were flying over the government buildings; and we were getting a drink of fresh water, which was as good to us as a square meal. We have had nothing but hard tack and canned tomatoes for ten days, and coffee once in a while. We expect to have bacon and coffee today. After landing we marched two miles through Ponce and through the most beautiful country I ever saw or ever expect to see—lots of tall coconut trees and all kinds of tropical vegetation. The natives are very friendly to us and about 'Vive la Americanos,' and come out and kiss the United States flag.

"Fruit, cigars and wine are cheap. We are eating mangroves, coconuts and bananas. We are not allowed to eat any, but do just the same. We traded hard tack for fruit and cigars or flour. I traded four hard tacks for a piece of fresh meat. It was fine.

"There is lots of skirmishing on the outskirts. Last night a native reported to the general that there were seventy Spaniards in a house down town. At 8 p. m. Co. M was ordered to fall in, and with instructive ones from General Wilson and the native guide and interpreter, we started. The native told us the place was three miles away, and we had gotten into the mountains, going into a deep cut without finding the Spaniards. We then turned back, taking the guide prisoner, and went back to town, capturing fifteen Spaniards on the way. Our guide proved to be a treacherous spy, and we considered ourselves mighty lucky in discovering him in time.

"I have seen cases here where natives have had their fingers split because they refused to join the Spanish army.

"There is something about soldiering that makes a fellow feel as though he could stand anything and he does not think of danger at all.

"This morning I went to the river to bathe and do my washing. There were lots of native women washing clothes there. They do a whole washing for two cents. All the native children go naked until 12 or 14 years old. Cigars are fine as any ten cent cigar in Wisconsin cost two and three cents each, but I haven't got the price of a smoke, yet manage to get one by exchanging hard tack once in a while. I see coconuts here twenty feet high, and coconuts trees from 75 to 100 feet high, and the palm foliage is grand.

"I did not see a pane of glass in Ponce. The doors are all big, while they close at night. The streets are all narrow, and there are some very pretty buildings of olden architecture. Ponce has 38,000 people.

"One colonel thinks we will be home by Thanksgiving."

## IN A PROSPEROUS CONDITION

Commercial Travelers in Janesville Enjoying a Season of Popularity.

Supreme Organizer Pease, of Columbus, Ohio, who has been in the city in the interest of the United Commercial Travelers' council, left town this morning for Madison, where he intends to establish a council.

While here he was much pleased with the way everything has been conducted by the local union, and believes the council to be one of the best in the country considering the size of the town.

J. D. Crawford, of this city, has been received as a new member, while J. F. Howe and Frank Bishop, also of this city, have applied for membership. The local council is now the second largest in the state, having a membership of sixty-five.

## REPORTS GROWING BUSINESS

Richardson Shoe Company is Pleased with Present Trade and Prospects.

Alex Richardson, of the Richardson Shoe company, arrived in town this morning from Menominee, Mich. In speaking of the factory, which was recently moved from this city, Mr. Richardson says that it is not a case of getting orders, it is a case of how they are going to fill those they have on hand, with a running force of nearly a hundred hands. Those who moved from here with the factory seem contented in their new homes, and express no desire to return. Mr. Richardson says that new hands are constantly being called.

## REV. SABIN HALSEY BEFORE COMMITTEE

### SEVENTEEN DIVINES LISTEN TO TESTIMONY

Evidence and Arguments Were Submitted This Afternoon Behind Closed Doors—Rev. Mr. Halsey Here in His Own Behalf—Testimony Will Soon Be Finished.

Behind closed doors in the Sunday school rooms of the First Methodist church in this city this afternoon was held a most interesting meeting, the outcome of which is yet to be determined. Seventeen divines from the Janesville district sat about the room for the purpose of taking additional testimony in the case of Rev. Sabin Halsey, formerly of this city, who is charged with drunkenness at Racine. Rev. Mr. Halsey in person was there, having made the trip here from Milwaukee for the purpose of testifying.

The Meeting Private.

Some interesting testimony is said to have been given this afternoon, but as newspaper men were given fair warning to keep away, the public is at present lacking a complete report.

To some of the charges made it is known that Rev. Mr. Halsey enters a sweeping denial. The meeting this afternoon was in the nature of a preliminary investigation, and on its outcome will depend whether or not the case will be taken up for trial.

The Outcome In Doubt.

Presiding Elder Pease, of the Janesville district, presided at today's meeting, and to a Gazette representative stated that he was not at liberty to state just what had taken place or what was likely to be the outcome of today's investigation. He further stated that the committee was composed of about seventeen clergymen from the Janesville district, and that Rev. Mr. Halsey himself was here to give testimony. Aside from these statements he refused to further commit himself.

Should the testimony prove sufficient there will be a trial at the annual conference to be held at Waupun on September 28.

## FOR SCOFIELD AND COOPER

Cooper Endorsed.

The Assembly District Convention to nominate delegates to the Congressional Convention assembled directly after the close of the State Convention. The meeting was called to order by John Huntley, of Avon, who was elected chairman. J. B. Foster was elected secretary.

Father Goebel is a man of about forty years, and graduated from St. Francis Seminary, Milwaukee, about seventeen years ago. He has been stationed at Elpou for several years past, and has been eminently successful in promoting the cause of the church there. Father Goebel will arrive in Janesville on Thursday of this week, and will celebrate his first mass and preach his first sermon at St. Mary's on Sunday next. He may be assured of a cordial welcome not only from the members of his new parish but from citizens at large, who will strive to make his stay here, be it short or long, both pleasant and profitable.

Father Roche will leave Janesville for Milwaukee tomorrow morning, and will assume his pastoral duties at the church of the Holy Rosary at once.

## DIVORCE FOR YOUNG COUPLE

Bride Seeks One 'at the Tender Age of Eighteen Years.

In the circuit court of Rock county this morning was brought to light a sad divorce action, the title of the case being Frank Patterson vs. Mary V. Patterson. The interested parties reside in Green county near Argyle.

On the 23d of last February they were married, and on the 14th day of March the plaintiff brought an action for divorce, claiming that his wife was not true to him. The action taken today was for suit money, Mrs. Patterson also applying for a divorce on the grounds of cruel and inhuman treatment. The court, after hearing the testimony, entered an order staying all proceedings on the part of the husband.

The unhappy woman is but eighteen years of age. Attorney Clawson, of Monroe, appeared in behalf of Mrs. Patterson.

Nicety of Etiquette.

A true gentleman feels that it is as essential to be courteous to the least as to the greatest, but etiquette does not always recognize his. The famous Talleyrand is reported to have used a graduation of politeness in asking his guests to take beef at a dinner party that he gave. The grade ran thus: To a prince of the blood: "May I have the honor of sending you my royal highness a little beef?" To a duke: "Monseigneur, permit me to send you a little beef." To a marquis: "Marquis, may I send you a little beef?" To a viscount: "Viscount, pray have a little beef." To a baron: "Baron, do you take beef?" To an untitled gentleman: "Monseigneur, some beef?" To his private secretary: "Beef?" But there was yet an inferior personage present, and to him Talleyrand uttered no word. He simply looked at him and made an interrogative gesture with the carving knife. But if the meat were good some of us would not trouble much how we were invited to it.—Pearson's Weekly.

## ARE FAST LEAVING CUBA.

Shafter's Troops Being Hurried from the Island.

## GEN. KENT'S DIVISION SAILS.

Arrangements Being Made for the Transportation of the Entire Fifth Army Corps—Spanish Prisoners May Begin to Leave for Home Today.

Santiago de Cuba, Aug. 9.—Gen. Kent's division of troops, comprising the Sixth, Sixteenth, Tenth, Twenty-first, Second, Thirteenth, Ninth and Twenty-fourth Infantry and the Seventy-first New York volunteers, began embarking on transports Monday to return to the United States. The Vigilancia takes the Sixth and Thirteenth Infantry, and the Grande Duchessa the Seventy-first New York. The rest of the division probably will get away from Santiago tomorrow. The Matamoros will carry the First cavalry and a battery of artillery.

Gen. Bates' division, which is composed of the First Illinois, the Thirtieth and Thirty-fourth Michigan, the Ninth Massachusetts, the First District of Columbia and the Twentieth and Third Infantry, will follow Gen. Kent's division in the general departure from Cuba. Gen. Lawton's division will go next week if transports shall arrive here by that time in sufficient numbers.

The probability now is that the First Illinois will embark on Thursday. Some difficulty is being experienced in getting a sufficient supply of water for the ships, and this may cause delay in carrying out the program of departure. However, the plans now contemplate getting the entire Fifth army corps out in a hurry.

The Spanish officers hope to begin loading the wounded and sick Spanish soldiers on board the Alicante to-morrow.

## CITY OF BISMARCK IN RUINS.

Capital of North Dakota Almost Wiped Out by Fire.

Bismarck, N. D., Aug. 9.—Bismarck was gutted by fire Monday night as never before in its history. The greater portion of the business section of the town was wiped out, the Sheridan hotel being one of the few important buildings left standing. The flames also invaded the residence district, doing immense damage. The total loss cannot be estimated as yet, but it will run into hundreds of thousands, and may reach the million mark.

The fire originated in the agent's office of the Northern Pacific depot, and almost as soon as it was discovered the entire building and the immense warehouse of the company were in flames. Inflammable oils and powder contributed to the rapid spread of the flames, and before they could be checked they had spread to a block of brick buildings across the alley, destroying the Tribune, Nare's hardware store, and the entire row.

The flames then leaped across the street to the First National Bank building, which melted away in a few minutes. The Central block followed, and then the fire spread to the postoffice, sweeping over the entire block and carrying down the postoffice, the Merchants' Bank block, the Griffin block, and all intermediate frame and brick structures. Kupitz' store and the greater part of that block were also burned. The flames also spread north into the residence section and gutted it.

The firemen were powerless to check the inroads of the fire, which spread to hundreds of buildings, licking them up as so much waste paper.

The origin of the fire is unknown, as no one was in the freight office when it started. All the wires are burned out, the Western Union office being one of the first to go, and the railroad office was also destroyed. A temporary cut-in was made to handle imperative business.

Every drug store in the city is buried; and all the grocery stores but two or three, two newspaper offices, and the great bulk of the business portion of the city, with several blocks of residences. All the postoffice supplies and fixtures are lost. Many people are homeless.

The line of fire extended from the Northern Pacific tracks to Thayer street on the north, and from Fourth to Third street on the east and west. The insurance may cover one-half the loss.

## Missouri Town Is Flooded.

Troy, Mo., Aug. 9.—A cloudburst inundated this town Sunday night, flooding the stores along the main street. Sidewalks were swept away and several highway and railroad bridges are destroyed. The St. Louis & Hannibal bridge east of here was destroyed, and scarcely a bridge remains across the creek for several miles. The damage in this city will probably reach \$10,000.

## Lives Might Have Been Saved.

Halifax, Aug. 9.—Undertaker John Snow, who accompanied the steamer Ilawatha on her mission in search of bodies of the victims of the Bourgeois disaster, said that some of the bodies showed evidence of having been alive in the water for two days at least, and that the body of one woman showed she must have lived four days after the sinking of the ship.

## Curzon Is Viceroy of India.

London, Aug. 9.—The Evening News is informed that George N. Curzon, parliamentary secretary to the foreign office, has accepted the office of Viceroy of India.

## As to Day's Resignation.

Washington, Aug. 9.—The published report of the intention of Secretary Day to resign the office of secretary of state upon the termination of the present war is based upon statements that were made at the time he assumed office, to the effect he would consent to hold it but a short time. No official utterance as to the secretary's purpose is now obtainable, and Secretary Day himself declines to make any statement on the subject.

## Remnants of Week.

St. John's, N. F., Aug. 9.—The French warship Manche has returned from the Straits of Belle Isle, where she went to inquire into the reported loss of a transatlantic steamship. She cruised along the coast and found a number of fishermen who had secured loose seals, apparently a part of some steamer which had sunk, but she could find nothing to identify the lost vessel, if any there has been.

## Twenty in Small Boats Drowned.

Lisbon, Aug. 9.—During the departure of Dr. Campos Salles, president of Brazil, two steamers that were carrying friends to bid him farewell came into collision, swamping two small boats. It is feared that no fewer than twenty persons were drowned.

## Egyptologist Ebers Is Dead.

London, Aug. 9.—Georg Ebers, the famous author and Egyptologist, is dead.

## Italy to Press the Claim.

London, Aug. 9.—The Rome correspondent of the Times, denying the rumor that the Italian cabinet council has decided to send additional men-of-war to Colombia in connection with the Cerutti claim, says: "Italy would prefer Colombia not to court needless humiliation, but unless I am totally misinformed the government will maintain the instructions already given to Admiral Candelari."

## Spaniards Will Be Sent Home.

Santiago de Cuba, Aug. 9.—Before the 17th of the present month the Spanish transatlantic line steamers Alicante, Isla de Luzon, Panama, Sarrutegui, Covadonga, Colon, Leon XIII, San Augustin, San Ignacio, and Francisco will arrive at this port, and will embark 16,500 Spanish soldiers, whom they will convey to Spain.

Mr. A. O. Wolfe, of Dundee, Mo., who travels for Mansur & Tibbott, Implement Co., of St. Louis, gives traveling men and travelers in general, some good advice. "Being a Knight of the Grip," he says, "I have for the past three years, made it a rule to make myself supplied with Chamberlain's Colic, Cholera and Diarrhoea Remedy, and have found numerous occasions to test its merits, not only on myself, but on others as well. I can truly say that I never, in a single instance, have known it to fail. I consider it one of the best remedies travelers can carry and could relate many instances where I have used the remedy on skeptics, much to their surprise and relief. I hope every traveling man in the U. S. will carry a bottle of this remedy in his grip." For sale by Peoples' Drug Co., Milwaukee street.

Getting a Good Ready.  
A clatter on the attic stair.  
A tramping overhead.  
Small feet that scamper here and there  
With swift and noisy tread;  
I hear a scrambling by and by,  
The sound of merry squeals,  
And now that from the attic high  
They're taking down the wheels.

## More Fall Shoes Have Arrived.

The best Shoe builders in the United States have been called upon for our stock this season. Dressy people like to be foremost in foot styles and therefore make early fall purchases.

For these folks and all early fall buyers we are preparing every day a great ovation in pretty footwear. You can be the first to wear the correct styles for fall if you wish to purchase now.

## Our Summer Tans Must Move.

The incoming of our fall stock makes it a necessity to push out all summer tans—men's and women's, boys' and misses'—as hurriedly as possible. Our shelf room is already crowded to its utmost capacity. We are making prices that will move summer goods, and each sale is a surprise party to the purchaser. You will find it so if you try us.

## Good Shoes

Cost more than poor ones. Sometimes the Shoe you pay the most for costs the least. It depends on where you buy them. Cheap folks ask less for cheap Shoes than we ask for good ones, but theirs cost the most in the long run. We have placed all broken sizes in Oxfords on our bargain table and marked them, choice, 98c.
